

**Tadh TriadT62222**

A bar chart showing the frequency of the number of faces ( $fp$ ) for each number of vertices ( $n$ ). The x-axis represents the number of vertices ( $n$ ) from 1 to 89, and the y-axis represents the frequency ( $fp$ ) on a logarithmic scale from 1 to 10. Most numbers have a frequency of 1, with a notable peak at  $n=88$  with a frequency of 10.

**TrH2\_TrispH2\_008367-RA**

Bar chart showing the frequency of the number of occurrences of the word "for" in the text. The x-axis represents the number of occurrences (1 to 117) and the y-axis represents the frequency (fp, 1 to 10). The distribution is highly skewed, with most occurrences having a frequency of 1. There are a few occurrences with a frequency of 2, and one occurrence with a frequency of 10.

on OG 6278

**Hhon\_g10154.t1**

Bar chart showing the frequency of the number of features (fp) for each variable. The y-axis is labeled 'fp' and ranges from 1 to 10. The x-axis lists 50 variables. Most variables have a frequency of 1. Variables 23, 24, and 25 have higher frequencies: 23 has 5, 24 has 2, and 25 has 1.

## HoiH23\_PIH23\_011798-RA

Bar chart showing the frequency of the number of features (fp) for each number of features (1 to 52). The y-axis is labeled 'fp' and ranges from 1 to 10. The x-axis shows the number of features from 1 to 52. The chart shows a distribution where most features have a frequency of 1, with a small cluster of features having a frequency of 2 or 3 between 20 and 35 features.

123 OG 6278

**HoiH23\_PIH23\_009458-RA**

Bar chart showing the frequency of the number of features (fp) for each number of features (1 to 52). The y-axis is labeled 'fp' and ranges from 1 to 10. The x-axis shows feature counts from 1 to 52. The distribution is highly skewed, with most features having a frequency of 1 or 2. The highest frequency is 2, occurring for feature counts 22, 23, and 24.

**HoiH23\_PIH23\_009459-RA**

123 OG 6278

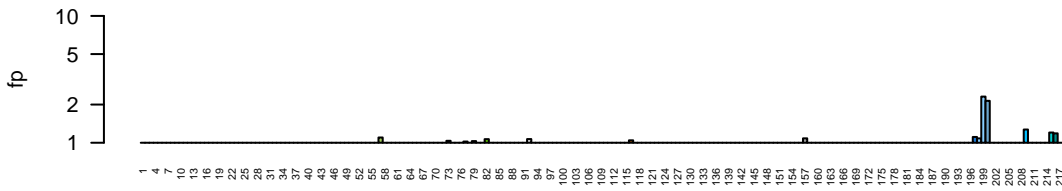

**HoiH23\_PIH23\_006042-RA**

Bar chart showing the frequency of the number of factors ( $fp$ ) for each variable. The y-axis is labeled  $fp$  and ranges from 1 to 10. The x-axis lists variables from 1 to 52. Most variables have a frequency of 1, with a few having higher frequencies: variable 76 has a frequency of 2, variable 144 has a frequency of 10, and variable 52 has a frequency of 2.
